

12th Annual EFCS Tutorial

Digital Edition

Trieste, 10-11 June 2021 CET time

Chair: Giovanni Negri (ginegri@gmail.com)
Co-Chair: Arrigo Capitanio (arrigo.capitanio@gmail.com)

The EFCS Tutorial goes virtual

Due to the persistent coronavirus spread, the 12th annual EFCS Tutorial which was scheduled June 7th-11th 2021 in Trieste has been cancelled. We are committed to resume the classic EFCS Tutorials as soon as possible. In the meantime, however, we wish to offer to all the people who have shown such a high interest for cytology an interactive event, which will be held digitally June 10th-11th 2021. All the main microscopy sessions foreseen in the original program will be included. Participants will have the opportunity to study in advance a selection of virtual slides. During the live session, the Tutor will provide a short lecture and discuss the most exemplary slides.

This is a great opportunity for cytologists to participate, in spite of the pandemic, to an event with high practical value.

The 2021 EFCS virtual cytology tutorial

Thursday 10th

8.45 – 9.00 **Introduction** (G. Negri, A. Capitanio)
