

SAVE THE DATE!

**44TH EUROPEAN
CONGRESS OF CYTOLOGY
BUDAPEST, 1-4 OCTOBER 2023**

The 44th European Congress of Cytology will be held in Budapest between 1-4 October 2023. You are cordially invited to ECC 2023. The conference venue will be the Budapest Marriott Hotel.

Main topics from the astonishingly large ocean of cytology sciences:

- different methods and their applications
- quality assurance and related topics
- cervical cytology including the use of HPV technologies, screening practice and theories
- FNAC and related topics including methods, their applications and real values, terminologies, comparisons....
- immuno-cytochemistry in cytology
- different ways of professional communication and the expected results
- existing gaps to be discussed: among diagnostic approaches, old and young, science-theory and everyday practice, workload and quality of the lab, experience and knowledge...
- organ cytology
- molecular approach in cytology
- how to work together with colleagues using Journals in today's digitalized and multilingual surroundings
- teaching cytology, every day on site educational opportunities
- the cytology teams, etc....

which will be sailed under the guiding principles of
“**combined intelligence**” and “**melting point**”.

“The diagnosis by aspiration is as reliable as the combined intelligence of the clinician and pathologist makes it.” (Stewart 1933). The use of the combined intelligence would lead us to the melting point where different “Ideas” dissolve in an equilibrium. The main purpose of the congress is to find the equilibrium. We also plan a rich set of social activities. Follow us on <http://cytology2023.eu>

We look forward to meeting you in Budapest in 2023.
